Chairs and other items that are listed in the book as having multiple quantities are sold the quantity times whatever the hammer price is. For example, if there is a set of 6 chairs, each chair is marked with the same lot # then followed by an X with a number (the number of chairs in that set), you are bidding on the ENTIRE set. One chair in the set is brought up front for auction, you will bid on that chair and whatever the hammer price ends up being, you will take that chair price x the number of chairs in the set to know what your purchase price is. For example: Lot #123 x 6. Chair #123 has a hammer price of \$100. Your purchase price is \$100 x 6=\$600.

**Terms:** Cash, Check, Visa and Mastercard accepted. Credit cards used will incur 4% fee. There will be a 10% buyers' premium charge on all in person sales and a 20% buyers' premium for all online sales. There will be sales tax unless you are exempt. **All items sell strictly as is with no warranties.**
